Meets your needs

Prism Lamitubes

Manufacturer of laminated tubes

(AN ISO 9001-2015 CERTIFIED COMPANY)

Who we are ?

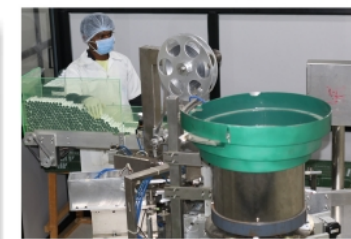

- ▶ We are instrumental in providing customized Laminated tubes to the Pharmaceutical, Ayurvedic, Oral Care, FMCG, Cosmetics and Healthcare industries. We are a specialist manufacturer of both ABL (Aluminium Barrier) and PBL (Plastic Barrier) tubing solutions. These tubes are highly reliable and rapidly spreading in market. Offered products are manufactured using high-grade tools and modern machineries under the guidance of our skilled professionals. These tubes are checked for quality at various quality check parameters during production. Customer can avail customization facility to get the desired product in accordance with their given specifications and within specified time.
- ▶ We are a leading manufacturer of laminated tubes like toothpaste tubes, cosmetic tubes and pharmaceutical tubes providing all kinds of packaging solutions. We have been building strong business relationships for the last few years and have built up a good network of clients spread all across the world.
- ▶ Our professionals only use high grade raw material and latest technology to manufacture these tubes.

Infrastructure

- ▶ Current installed capacity - 2 million tubes / month
- ▶ Dust free; air conditioned plant
- ▶ We have quality control laboratory for various testing of laminated tubes which gives 100% assurance of quality of our product
- ▶ Each machines are well segregated by partition to avoid mix up. We also have different areas for raw material and finished good storage.
- ▶ We manufacture our product in clean environment control area with less manual handling and all require testing of product to give best quality of products.
- ▶ Our team is highly experienced and fully trained to perform with utmost care.
